Learn to manage digital photos

If you are considering attending the Management of Digital Photographs seminar provided by the NetWIT Computer Club at GNR you will need to download the FREE program "Picasa 3" prior to arriving at the Rally grounds. This is a FREE Google program available by going to <http://picasa.google.com/>. Both Windows and Mac versions are available to download. By downloading to your computer prior to arriving at the rallygrounds will keep the WiFi less crowded. Details on the seminar times are published in the program booklet and the NetWIT brochure in the Welcome Bag.
